

ScanPro i9500 All-In-One

The Only Scanner with Blip Sensing for Precision Scanning

Achieve Superior Image Quality and Efficiency with Every Scan

The ScanPro® i9500 All-In-One™ is the only scanner equipped with **blip sensing technology**, providing **precise, efficient scanning** for microfilm and microfiche. Featuring **advanced imaging capabilities** and **real-time enhancements**, the i9500 delivers **high-resolution scans** with **exceptional clarity**, making it the **perfect solution** for accurate document retrieval and conversion.

KEY FEATURES

- **Exclusive Blip Sensing Technology**

The ScanPro® i9500 All-In-One™ is the only scanner that reads indexed “blips” for all film types, including Kodak, Canon, Minolta, 3M, AGFA, and custom formats, ensuring precise positioning with no manual adjustments.

- **High-Performance 26 Megapixel Camera**

Equipped with a 26 MP camera, the i9500 All-In-One™ captures highly detailed, sharp images, ensuring the best image resolution for microfilm and microfiche scanning.

- **Real-Time Image Corrections**

Enjoy live image corrections that automatically enhance each scan, improving image quality while eliminating the need for post-scan adjustments.

- **Pre-Configured Scanning Settings**

Configure the ideal settings once and scan consistently without needing to adjust them each time, streamlining your workflow.

- **One-Click Operation**

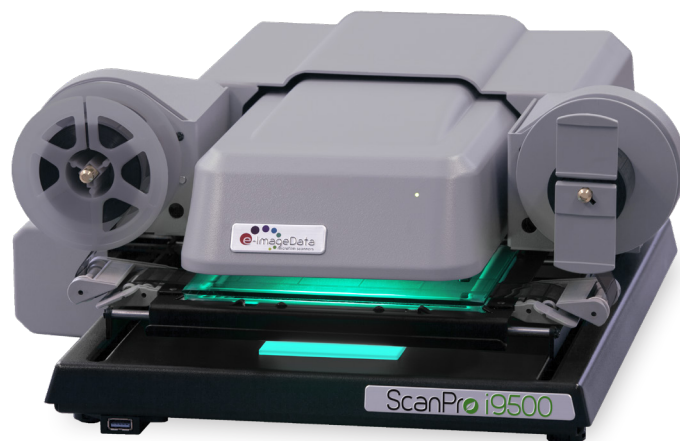

Simplify your scanning process with one-touch scanning, saving, and printing. This user-friendly interface increases operational efficiency.

- **OCR and Text Search**

The ScanPro® i9500 All-In-One™ includes integrated OCR technology, allowing for text searches and the ability to save scanned documents in searchable formats.

MEDIA FORMATS

✓ Blips ✓ 16/35mm/cartridge(M) Roll Film ✓ Fiche ✓ Jackets
✓ Micro-opaques ✓ Aperture cards ✓ Color

**EXCLUSIVE
BLIP
SENSING**

Experience seamless microfilm **retrieval** and **high-speed conversion** with the ScanPro i9500 All-In-One™. Offering **AUTO-Carrier™ technology** and **advanced conversion software** at a **fraction of the cost** of other high-end scanners, the i9500 ensures a high-value, **high-performance solution** for organizations looking to streamline their microfilm digitization process with **precision and efficiency**.

Discover how the ScanPro® i9500 can enhance your scanning. Contact us today for a demo or more info!

ScanPro® i9500 All-In-One™ Features and Specifications

STANDARD HARDWARE

26 megapixel camera: (6.6 MP sensor x 4) with integrated pixel-shifting technology utilizing the largest pixels in the industry providing the clearest image

Optical zoom magnification: Optical 5x to 105x

Large image sensor: Measuring 35mm x 48mm with the largest pixel sizes in the industry for the highest image quality

Single-click camera orientation: Mechanically rotate image sensor from portrait to landscape for the best image quality

USB 3.1: Convenient, front access port for flash drives

Illumination: Soft, bright, film-optimized, monochromatic LEDs with lifetime warranty and optically clear carrier glass for best image clarity

Precision-Guide rollers: Low inertia 12 ball bearing design protects film, easy-to-thread, provides precision control of film position and movement

LibraryQuiet™: Precision engineering for ultra-quiet performance

Fiche Carrier: Provides manual support for fiche, jackets, aperture cards and micro-opaques

AUTO-Carrier™: Built to support high-speed conversion scanning of COM microfiche, jacket microfiche and enhance roll film performance

ADDITIONAL INCLUDED HARDWARE FOR MEDIA

Motorized Roll Film Carrier Options:

UCC 550 Roll Film Carrier: 16/35mm roll film

UCC 650 Roll Film Carrier: 16/35mm, M cartridge roll film

OPTIONAL HARDWARE | CAMERA

Color Camera: Delivers vibrant, high-quality color images

PRODUCT INFORMATION

Desktop Operating Footprint:

7.5in x 12.5in x 16.5in / 19cm x 42cm x 42 cm (H x W x L)

7.5in x 16.5in x 16.5in (with AUTO-Carrier™)

Operating Systems: MS Windows 10, Windows 11 (32-bit and 64-bit); Editions: Enterprise, Professional, Home

Computer Interface: USB 3.1 Gen 1

Power/Weight: 100-240VAC 50/60Hz / 32lb/14.5kg

Film Path: Straight film path (film not pulled across glass edges)

Energy Efficiency: ENERGY STAR® Certified

Product Safety: OSHA workplace safety certified to US/CA standards

Software Support: Free, non-expiring software updates and ongoing user training for continued support

Product Warranty: 1-year factory warranty including all film/fiche carriers

STANDARD SOFTWARE FEATURES

User interface: Intuitive Windows computer interface with customizable film selection wizard. Just a single-click to automatically set up your scanner using custom presets that retain all settings including optical zoom and focus. Presets are selected simply by clicking a picture of the customer's film.

Blip Sensing: Supports one, two, three level (highest accuracy in the industry), all common blip sizes and programmable to accommodate custom blip sizes. Simplex and duplex film formats, automatic scanning and searching

AUTO-Scan®: Automatically scans roll film (including oversized 35mm film), fiche and jackets

Straighten and crop, File formats: PDF, TIFF, JPEG and more

Unlimited scans, up to 20 images per minute (IPM) roll film, fiche and jackets

FOCUS-Lock™: Continual image focus even during optical zoom

SPOT-Edit™: Live image editing, select any area (or multiple areas), adjust brightness, contrast, redact or whiteout for any selection with a single-click

AUTO-Adjust™: Automatically adjusts brightness, contrast, straightens, and crops with single click

Automatic straighten: Select fully automatic or semi-automatic

Previous/Next: Click to quickly and accurately move 1 to 9 images

MergeClips™: Paste, annotate, arrange, and size multiple scans onto a single page

Scan and save file formats: PDF, TIFF, JPEG and more, single and multi-page, single page OCR (OCR using ABBYY® FineReader Engine)

OPTIONAL SOFTWARE FEATURES FOR CONVERSION

ScanPro Advantage Membership - \$265/year (3 months included with scanner purchase)

AUTO-Scan® Pro: Automatically scans roll film, fiche and jackets

Auto-brightness, straighten, crop, and duplex film

File formats: PDF, TIFF, JPEG and more, single and multi-page, with and without OCR (OCR using ABBYY® FineReader Engine)

Unlimited scans, up to 100 IPM roll film and fiche and up to 70 IPM jackets

AUTO-Scan QA: Interactive quality assurance tools for automatic scanning to guarantee you won't miss an image

Specify scan dimensions: Specify what size to output your large format images to print or scan (Business card size to E size drawings)

Fit-to-window: Displayed image covers the entire monitor screen leaving no blank area

On-Screen Magnifier: Digital zoom 5x to 1575x, read small text and examine fine details. Scan and print what is seen in the magnifier window.

Digital image rotation: Click to rotate 90°, 180°, 270°, and 360°

Mirror: Click to mirror image

Software selectable resolution: 150 dpi to 2000 dpi, 8-bit grayscale and 1-bit black and white

Scan and save file formats: PDF, TIFF, JPEG and more, single and multi-page, single page OCR (OCR using ABBYY® FineReader Engine)

Watermark and copyright: Customizable warning support for scans and prints

Single-click print button: Print to any local or network printer in SD or uHD

Single-click scan buttons: Scan to any local, network, cloud or external drive in SD or uHD

Single-click scan to cloud button: Save seamlessly to cloud using preset file name and format

Single-click scan to email button: Scan and save seamlessly to email securely using external or embedded email app
